From SIR CLIFFORD ALLBUTT, Regius Professor of Physic, Cambridge.
[Residence St Radegunds, Chaucer Road.]

Dear Miss Mason

Many thanks for
kindly thinking of me & sending
me your pamphlet on The
Basis of National Strength. The
little is of the happiest.
I read your paper carefully

as they appeared ^{ilp2 cmc 300} - 1 & am (to)
to have them in this permanent
form, which by the way does
credit to Ambrose!

We desire our kind regards
& hope that you are fairly
well.

Dear Miss Mason,

I am very much obliged to
you for sending me your letter on
the Basis of National Strength.
I am in complete accord with
your wise treatment of a puzzling
theme. I trust your argument may
prove of influence.

Yours very truly

February 8th 1913

Dear Miss Mason,

For very kind
of you to send me
your thoughts on
"The Basis of
National Strength".

I am looking forward
to a little relief
from

pressure on
Monday, and then
I hope to profit
by your kindness.
It must be, I am
sure, a happiness
to you as the
years pass on to
see the increasing
bold upon the
Chabon which
is enjoyed by the

English Association.

Much of the seed
which you so generously
sowed has had,
and is having, its
harvest.

When I tell your
present address,
and certain references
in your notes to
a very great man
who lived in the
vicinity of the

I suspect that you
sometimes find your
way across the
"Reptile Shore"
to this world at
Fox Row.

If so, when next you are
there, I may give you
a warm and
respectful greeting
from me.

Believe me to be
very truly Yours
